# DESCRIPTION

ELEDS-TUNNEL® signaling is an evacuation system made up of LED modules and a power supply, which guarantees the safe and correct dynamic signaling of evacuation routes.

TECHNICAL CHARACTERISTICS

⇒ Power: 90-305 VAC 47/63 Hz

⇒ Consumption: 3 W approx. per module.

⇒ Power supply: 24VDC / 150W IP68

⇒ LED type: HQ67-2100 UBGC

⇒ IP66 and IK10.

⇒ Dimensions: 964x356x43 mm

⇒ Materials: AW5754 aluminum frame and thermoplastic polyester (PET).

INSTALLATION AND ACCESSORIES

Simple installation and replacement of the modules thanks to the quick connectors.
